

Concept Project Pack Amber with Riven and Ammonite on the step

concept

The Concept range allows you to combine any of four contrasting textures to create a broad range of design possibilities. The textures draw their inspiration from nature: smooth rounded pebbles, fossil shells, lightly riven sandstone and split stone-on-edge. Displaying a wealth of detail, each design provides a surprisingly level overall surface that is perfectly comfortable to walk on. Pebble, Drystone and Riven textures are suitable for most garden furniture. A project pack is now available for one of the most popular layouts, see page 123.

Concept Ammonite Amber

Riven Pebble and Drystone Shadow

Riven Shadow and Ammonite Amber

concept Colour options • Amber • Shadow

	sizes (mm)	m ² per pack	no. per pack	weight/kg per pack	colours
