

Cruciform, Cinder Grey

# cruciform<sup>new</sup>

New for 2009, Cruciform accurately recreates the appearance of carefully laid individual stone setts but is incredibly quick and easy to lay. The unique design of the cross-shaped slabs ensures a truly random layout, while the integral spacers guarantee an accurate joint width. When both moulded and actual joints are pointed, a seamless appearance is achieved. Special units are available to square off the perimeter with no cutting being required.
