

Rio Walling, Grey and Carbon and Rio paving Storm

# rio walling <sup>new</sup>

New for 2009, the Rio range has been extended to include this contemporary reconstituted stone walling. With a granular granite-effect texture, Rio Walling will perfectly complement many of our more contemporary paving ranges. Available in two sophisticated shades of grey, with a unique thin course block in Carbon that will either tone or provide contrast with the other two colours. Single and double copings complete the range.
